**MESSAGE**

I am pleased to learn that GD Goenka Group is celebrating its Silver Jubilee. It is a joyous and momentous occasion for the teachers, alumni, students and administrative staff of the institution.

Education lies at the core of building a balanced and harmonious personality of an individual. It has the power to transform and elevate mankind to the next higher level. Aim of education must be to instill discipline, commitment and passion for knowledge, along with compassion for fellow citizens of the world. An integral part of the social infrastructure, education is one of the essential pre-requisites for the development of a nation

Nations and societies of the 21<sup>st</sup> century will be governed by innovation and technology. Educational institutions will need to inculcate excellence as a habit among students to enable them to make a rich contribution in their sphere of activity. Teachers must help students to build bridges with the knowledge acquired to get connected with the collective aspirations of the nation.

Silver Jubilee is an ideal occasion to chart out a visionary roadmap for the future. The teaching fraternity and the students must draw inspiration from the achievements of the University and strive to take the educational institutions under the Goenka Group to next higher levels of excellence.

Heartiest congratulations and best wishes to all the teachers, students, alumni and staff of Goenka Group for the Silver Jubilee celebrations. May the Souvenir being published help the students sharpen their literary and creative skills.

(Narendra Modi)
